

Pretty sure with the naming history Charles III will be out of the way prematurely like her predecessors were by masonry/jews then King Will-I-Am IV, after william of orange(33) financed by amsterdam jews(and aided by masons) invaded and usurped the throne AND instituted the Bank of England slavery. So Sol Invictus William IV coming up, who knows what slavery will result there. Will.I.AM

An appropriation and subversion of the eternity of the Word, mentioned in both the NT/OT a few times. Before Abraham, I AM, no time involved, eternity. Slogan you'll used/abused a lot by satanists, mocking Like they always make sure they wear crosses to defame, even mel gibson tranny claims to be tradcath but in reality is an infiltrator subversion agent. William IV has 3 Vs in it too, VVV 555=6, 3xV, 3xi,2xll, 1xA

Walking through the ROYAL ARCH very subtle. They select names for a reason, Charles out of the way like her predecessors then WILL-I-AM IV, Sol Invictus in. VVV. Like the usurper, William III of Orange, financed by tribesman in Amsterdam and setup Bank of England, slavery. All part of the satanic ritual.

There are 911 days between Mar 11, 2020 (Wednesday) and Sep 8, 2022 (Thursday), within which, there are:

Charles III(takes throne on 9-9-22) to be disposed of like his TWO namesakes or retire at 77, then Will-I-AM IV, sol invictus VVV, after william of orange III (is the new black 33) to be crowned at 44 probably on 6-6-26, 9-9-26, 2-22-26 etc then another 4 years until 2030 theatrical black tech doomsday. 2033, 500million left, all trannys or sterilized lab bred servant class that do what robots can't do, ruled by AI robots. Could be 29 with 4 years to 33, aged 47, agent 47 bald hitman lol. Trumpina the orange(is the new black 33) transman 47th sock puppet 2024.

QE2 1926 to 2022, 96 yo, 26, 22, 6.

Everyone shown has the wrong finger ratio and the ladyboys have the hips of men among other things. I'm wondering if the mark and harriet drama is because s/he's the NEW orangeman like william III the orangeman who invaded from overseas to usurp. Have to look up any king harrys and their history. Actually Henry is closer so Henry the orange-person the IX, bringer of the next generation of divorce and her own church of the commonwealth or such lol

I'm not sure how people think this is a normal family of loving comfort etc it's not, these people are portrayed for the public and are just actors during their whole lives. The private part is like rocky horror(which DiE loved btw) or worse, charlize' disturbing gnosticism was chronicled in an old book called the prince and the paranormal and remember when she said she was the reincarnation of hitler? The ancient monarchy of honor, chivalry and true faith ceased with Henry VIII(and the bastard QE1 very telling) and was buried with William III of orange(33) usurpation and it certainly is fully a putrid cess pool by this time. Will-I -AM IV is going to be even worse when she takes the throne. When overall decent people(becoming rarer) love evil, because they believe the images by the beast that portray it otherwise,

it's extremely sad.

So let's get this straight, QE2 supposedly died on 9-8-22 at 96, which is 911 days after 3-11-2020 the beginning of rule by covid and leading to massive vaxxing much by force of law, then charles takes throne 9-9-22 but is proclaimed on 9-10-22, the day before 9-11-22. The first two charles died while on the throne prematurely and they don't pick names randomly at this level. William III of orange usurped the throne with financing from amsterdam tribesman and then setup the bank of england. And now we have the next in line Will-i-am IV, VVV=6, which will most likely inaugurate the open njwo of compulsion by various means, over a vastly lower population in the west due to various arranged things. QE2 1926-2022, so 2026 is likely when Wilma installed, 6-6-26, 9-9-26 etc. 4 years to 2026 then 4 to 2030 for an arranged by black tech judgement and return of Christ in 2033, deception, then the jwo will be "god" approved going forward. I think the real train cars, rather than the fantasy foreshadowing movie ones of the post WW2 gambit, to the soylent green plants will be electric high speed at least, lovely. The real green tech is soyboy powered.

KY22LXM thanks for the completion shot of there. mxl=1040 king henry III(the black) of germany defeated in bohemian grove. Harthacnut reclaims british throne from harefoot who died earlier, his illegitimate son in care of granny. King Duncan of Scotland killed, Macbeath new king. Kings Year 22?

Well when they say the english never had a civil war point to almost half a century of it resulting in a usurper, William III of Orange, on the throne financed by amsterdam tribe members and the bank of england being established with the public enslavement which resulted from it. The natl debt went from nothing to millions in a few years and who knows how many trillions it is now. They would not have given him the name without knowing all that btw so this has some meaning. A beheaded monarch Charles I by parliament resulting in a masonic regime then later Charles III, who restored the primacy of the monarchy and was most likely poisoned by masonry and it's hidden tribe masters. Perhaps there's a play here, some theater down the road which gets him out of the way(like Di), fake death or some such accident where she actually retires to anonymity, then William, Sol Invictus, takes the throne. Remember the usurper William III of Orange who invaded with foreign money and illegally took the throne. orange=33 masonic color.

Actually the orange, (is the new black 33), candle in a still photo here yesterday was right over the bowed head of the orangeman harriet, eternal kabbalistic flame stuff, with video you get different angles from different broadcasters so it's going to vary. Instead of a successor to William of Orange III the usurper financed by amsterdam(new amsterdam was nyc original name btw) tribe members maybe it's an appropriate inversion of Megan of Black(is the new orange 11). The serpent winds its crooked way.

The satanic elite, which took over the royals hundreds of years ago, plan this stuff with dates and etc and tie it into the destruction of any remaining morals and decency in their various operations. This little play involves Charles who will be gotten out of the way(like all previous charles) in 2026, so either William IV, Sol

Invictus, takes over or Harry the Orangemen invading from overseas with hexagram orange money, like William III of Orange the usurper, will setup another form of the bank of england slavery. The overseas orange face will help, with help from the other orangeman, fergi. Orange is the new black 33. Queen Meghan the black 11. MM 1313. KM 1113. The trannysaurus aspect is universal here, all of them.
